SUMMARY

Fourth-year Electrical Engineering student with a Power Systems concentration and hands-on industry experience in industrial power distribution, protective device coordination, and NFPA-compliant documentation. Experienced developing CT wiring schematics, scope-of-work packages, and electrical maintenance documents for industrial facilities, and coordinating directly with field technicians and outside contractors. Pursuing AutoCAD Electrical and Revit proficiency alongside formal coursework in power systems. Self-motivated and driven to see technical problems through from start to finish, proactive about seeking input, and comfortable integrating ideas across disciplines.

EDUCATION

University of Houston, Cullen College of Engineering

Houston, TX

B.S. Electrical Engineering, Power Systems Concentration | GPA: 3.82

May 2028

Dean's List: Fall 2024, Spring 2026

Relevant Coursework: Circuit Analysis I & II, Circuit Analysis Laboratory, Circuits and Systems, Power System Analysis (in progress), Digital Logic Design, Numerical Methods, Engineering Statistics

SKILLS

Certifications: OSHA-30 General Industry | SEL CBT 101 Protective Relay Fundamentals (4 PDH) | Pursuing ETAP Operator Certification

Proficient: GE Vernova EnerVista (Multilin), Maximo CMMS, MATLAB, MS Suite, Google Workspace

Currently Learning: AutoCAD Electrical, Revit, ETAP, KiCad

Languages: Fluent in English, Conversational in Spanish

PROJECTS

Water Level Indicator: Instrumentation Circuit

University of Houston

- Designed and characterized a BJT transistor-based level sensing and indicator circuit; diagnosed measurement anomalies by iterating between Falstad simulation and bench oscilloscope probing to isolate a saturation failure caused by high resistivity in distilled water, applying the same simulation-then-verify workflow used in industrial instrumentation design

WORK EXPERIENCE

Air Liquide

Pasadena, TX

Plant Operations Electrical Engineering Intern

June 2025 - August 2025

- Developed CT wiring schematics for industrial bus heater ammeter monitoring circuits and authored scope-of-work documentation specifying installation requirements, safety references, and testing criteria for field technicians and outside contractors
- Authored three scope-of-work packages for a Victoria plant turnaround covering switchgear, battery systems, and motor assets; coordinated with Engineering, Safety, and Maintenance teams to ensure complete coverage and mitigate potential operational losses exceeding \$1M
- Revised NFPA 70B- and IEEE-compliant maintenance documentation for DC systems, batteries, chargers, and UPS equipment; transitioned asset management from time-based to condition-based scheduling, reducing unnecessary testing cycles and extending equipment lifecycle
- Migrated and validated motor protection relay settings from GE Vernova Multilin 469 to 869 in EnerVista, confirming parity across all protection elements and eliminating a recurring fault source, reducing projected maintenance costs by ~\$10,000
- Selected for return internship (Summer 2026) based on performance and documented project impact

Take 5 Oil Change

Crosby, TX

Certified Lube Technician

March 2025 - May 2025

- Executed 40+ vehicle service cycles daily to manufacturer specifications in a fast-paced, safety-critical environment, maintaining procedural discipline across high-volume operations
- Diagnosed service needs and translated technical findings into clear customer recommendations through structured verbal communication

Planet Fitness

Crosby, TX

Member Services Representative

January 2024 - March 2025

- Managed operations for a 1,000+ member facility, maintaining equipment, cleanliness standards, and a >90% satisfaction rating, while converting an average of 6 prospects per week through structured membership presentations

ORGANIZATIONS

Tau Beta Pi Honor Society

Houston, TX

Member

April 2025 - Present

Society of Hispanic Professional Engineers (SHPE)

Houston, TX

Member

August 2023 - Present

IEEE University of Houston Chapter

Houston, TX

Member

August 2025 - Present
