SUMMARY

Fourth-year Electrical Engineering student concentrating in Power Systems with direct hands-on experience in protective relay configuration, motor protection analysis, and industrial electrical asset management. Proficient with GE Vernova Multilin relay platforms (469 and 869) and EnerVista configuration software. OSHA-30 certified, SEL Protective Relay Fundamentals certified, and actively pursuing ETAP Operator Certification. Currently completing formal coursework in Power System Analysis and Automatic Control Systems. Self-motivated and driven to see technical problems through from start to finish, proactive about seeking input, and comfortable integrating ideas across disciplines.

EDUCATION

University of Houston, Cullen College of Engineering

Houston, TX

B.S. Electrical Engineering, Power Systems Concentration | GPA: 3.82

May 2028

Dean's List: Fall 2024, Spring 2026

Relevant Coursework: Power System Analysis (in progress), Automatic Control Systems (in progress), Circuits and Systems, Applied Electromagnetic Waves (Honors), Numerical Methods, Signals & Systems Analysis, Engineering Statistics

SKILLS

Certifications: OSHA-30 General Industry | SEL CBT 101 Protective Relay Fundamentals (4 PDH) | Pursuing ETAP Operator Certification

Proficient: GE Vernova EnerVista (Multilin 469/869), Maximo CMMS, MATLAB, MS Suite, Google Workspace

Currently Learning: ETAP, AutoCAD Electrical, Power Electronics (self-study), Python

Languages: Fluent in English, Conversational in Spanish

PROJECTS

NAE Grand Challenge: Solar Energy Storage Dashboard

University of Houston

- Led integration and built the solar economics module for a MATLAB App Designer interactive tool comparing energy storage technologies and grid integration economics across global regions; analyzed cost, performance, and operational tradeoffs to support infrastructure planning

WORK EXPERIENCE

Air Liquide

Pasadena, TX

Plant Operations Electrical Engineering Intern

June 2025 - August 2025

- Diagnosed motor protection failures on a GE Vernova Multilin 469 relay at the Freeport facility; downloaded existing settings, migrated and validated the full configuration to a 869 model in EnerVista, confirmed parity across all protection elements, and flagged settings differences, eliminating a recurring fault source and reducing projected maintenance costs by ~\$10,000
- Developed CT wiring schematics for industrial bus heater ammeter monitoring circuits, enabling real-time current measurement to detect heater failures before bus duct damage and equipment loss
- Authored three scope-of-work packages for a Victoria plant turnaround covering switchgear, battery systems, and motor assets; used Maximo CMMS to identify PM-due equipment and reconcile turnaround workbooks, coordinating with Engineering, Safety, and Maintenance to mitigate operational losses exceeding \$1M
- Revised NFPA 70B- and IEEE-compliant maintenance documentation for batteries, DC systems, chargers, and UPS assets; led transition from time-based to condition-based maintenance scheduling across multiple Air Liquide facilities
- Observed Channelview plant turnaround operations, gaining direct exposure to large motor changeouts, breaker testing, switchgear inspection, and relay coordination in a live industrial environment
- Selected for return internship (Summer 2026) based on performance and documented project impact

Take 5 Oil Change

Crosby, TX

Certified Lube Technician

March 2025 - May 2025

- Executed 40+ vehicle service cycles daily to manufacturer specifications in a fast-paced, safety-critical environment, maintaining procedural discipline across high-volume operations
- Diagnosed service needs and translated technical findings into clear customer recommendations through structured verbal communication

Planet Fitness

Crosby, TX

Member Services Representative

January 2024 - March 2025

- Managed operations for a 1,000+ member facility, maintaining equipment, cleanliness standards, and a >90% satisfaction rating, while converting an average of 6 prospects per week through structured membership presentations

ORGANIZATIONS

Tau Beta Pi Honor Society

Houston, TX

Member

April 2025 - Present

Society of Hispanic Professional Engineers (SHPE)

Houston, TX

Member

August 2023 - Present

IEEE University of Houston Chapter

Houston, TX
