SUMMARY

Fourth-year Electrical Engineering student with coursework in automatic control systems, microprocessor systems, and signals analysis, combined with hands-on industry experience configuring programmable protection relays, designing instrumentation circuits, and implementing condition-based monitoring frameworks for industrial processes. Comfortable translating system requirements into configured, tested, and documented solutions ready for field deployment. Self-motivated and driven to see technical problems through from start to finish, proactive about seeking input, and comfortable integrating ideas across disciplines.

EDUCATION

University of Houston, Cullen College of Engineering

Houston, TX

B.S. Electrical Engineering, Power Systems Concentration | GPA: 3.82

May 2028

Dean's List: Fall 2024, Spring 2026

Relevant Coursework: Automatic Control Systems (in progress), Control Systems Laboratory (in progress), Microprocessor Systems, Signals & Systems Analysis, Digital Logic Design, Numerical Methods, Engineering Statistics

SKILLS

Certifications: OSHA-30 General Industry | SEL CBT 101 Protective Relay Fundamentals (4 PDH) | Pursuing ETAP Operator Certification

Proficient: GE Vernova EnerVista (relay configuration), Maximo CMMS, MATLAB, C, Falstad, MS Suite

Currently Learning: PLC Programming, ETAP, AutoCAD Electrical, Python

Languages: Fluent in English, Conversational in Spanish

PROJECTS

Water Level Indicator: BJT Sensing Circuit

University of Houston

- Designed a BJT transistor-based water level sensing circuit; diagnosed LED underperformance by iterating between Falstad simulation and oscilloscope bench measurements to isolate a transistor saturation failure caused by high distilled water resistivity, demonstrating systematic closed-loop debugging methodology

555 Timer PCB: KiCad Design Workshop

IEEE UH Chapter

- Completed KiCad schematic capture and PCB layout for a 555 timer astable circuit as part of an IEEE design workshop, progressing from schematic capture through Gerber file generation

WORK EXPERIENCE

Air Liquide

Pasadena, TX

Plant Operations Electrical Engineering Intern

June 2025 - August 2025

- Configured and validated a GE Vernova Multilin motor protection relay (469 to 869 upgrade) in EnerVista, programming protection element parameters, verifying settings parity, and eliminating a recurring motor fault, reducing projected maintenance costs by ~\$10,000
- Designed CT wiring schematics for industrial bus heater ammeter monitoring circuits; authored supporting scope-of-work specifying installation, testing, and commissioning requirements to ensure reliable real-time current measurement
- Implemented condition-based maintenance protocols for industrial electrical assets by revising NFPA 70B- and IEEE-compliant documentation; reduced unnecessary maintenance cycles and extended equipment service life across multiple facilities
- Used Maximo CMMS to audit equipment maintenance histories, identify PM-due assets, and reconcile turnaround scheduling workbooks across electrical, battery, and motor systems
- Selected for return internship (Summer 2026) based on performance and documented project impact

Take 5 Oil Change

Crosby, TX

Certified Lube Technician

March 2025 - May 2025

- Executed 40+ vehicle service cycles daily to manufacturer specifications in a fast-paced, safety-critical environment, maintaining procedural discipline across high-volume operations
- Diagnosed service needs and translated technical findings into clear customer recommendations through structured verbal communication

Planet Fitness

Crosby, TX

Member Services Representative

January 2024 - March 2025

- Managed operations for a 1,000+ member facility, maintaining equipment, cleanliness standards, and a >90% satisfaction rating, while converting an average of 6 prospects per week through structured membership presentations

ORGANIZATIONS

Tau Beta Pi Honor Society

Houston, TX

Member

April 2025 - Present

Society of Hispanic Professional Engineers (SHPE)

Houston, TX

Member

August 2023 - Present

IEEE University of Houston Chapter

Houston, TX

Member

August 2025 - Present
